

# One-Day District Leadership

AVID works, and we know it works best when it has strong leadership at the district level. Attend this Community of Practice and network with district leaders throughout the year to share ideas and best practices while gaining an understanding about AVID’s professional learning opportunities.

## Attend This Community of Practice

This summer, we invite you to convene with district leaders from all over the nation in the One-Day District Leadership Community of Practice—focusing on the direct impact of district leadership on high-quality AVID implementation.

- This Community of Practice is **designed for district administrators embarking on their AVID journey** or enhancing their AVID College and Career Readiness System (ACRS) for all students districtwide.
- The AVID College and Career Readiness Framework **supports current district strategic plans, initiatives, and the essential role of district leadership** in AVID implementation.
- District practices that support AVID Schoolwide with a **focus on rigorous academic preparedness, opportunity knowledge, and student agency** are sustained through AVID’s four Schoolwide Domains of Instruction, Systems, Leadership, and Culture.

## Community of Practice Schedule

To respect the schedule of our district leaders, this Community of Practice will meet on Day 1 of DigitalXP and will reconvene in October, January, and April.
